

OUR TRIP TO DUBLIN

By Wassima Abardaj / Isaac Daniel / Dani Nuño

Day1: After waking up super early, we met at the airport. After changing the plane due to a technical problem we arrived at Dublin's airport and we were brought to our host families. After having the first meal we could hang out with our friends around Dublin to get the first contact of the city.

Day2: On our first day of lessons we had to go to Tara Street (our common meeting point), and then we went through a tour around Dublin with Federico, our guide from the school. After eating in Burger King we had to go to class. Finally we got into the train back to our host family houses to have dinner with them.

Day3: That day we went to The National Gallery and we took advantage of the proximity of the walk to the Trinity College to visit it too. Then, the Whisky Museum was also nearby and we visited it. After the lessons, we had a Quiz Game night which was like a Trivia Game about curiosities in Ireland, Spain and the world. Then, we went to a Pub to watch the match Argentina - Croatia.

Day4: On our fourth day we had an all-day trip, so we spent a couple of hours in a bus to visit Glendalough and its lakes and the Kilkenny Castle. That was a really tiring day. Of course we went again to the same Pub again to watch the France – Morocco match.

Day5: In the fifth day we had free time in the morning so we decided to go to the Phoenix Park and we had the pleasure to watch deers. After having class we went straight to Kilbarrack (most of our host families were there) to have dinner and spend the evening with the families.

Day6: On our last day of class we had a trip to Howth, located in the north of Dublin. There we could watch a seal. In the class we had to do a Presentation of Ireland's culture and it went pretty good. Fortunately, we could find a Restaurant (a Korean one) and we had dinner all the group together, that was the best day for us. After dinner, some of us went to a pub to hear live music.

Day7: We spent the whole day in the Airport.
